GitHub: https://github.com/93sachin
Portfolio: https://93sachin.github.io/sachin-portfolio
Email: sachinesky@gmail.com
Mobile: +91-9334464613

Skills

Languages: C++, Java, C, Python
Core Subjects: DBMS, DSA, OS
Web Basics: HTML, CSS, JavaScript
Tools/Platforms: Excel, Power BI, Tableau, SQL, GitHub, Pandas, NumPy
Soft Skills: Problem-Solving, Analytical Thinking, Team Collaboration, Adaptability

Internship

Naye Aasha Organization — Community Development Intern | NAYE — Jun' 24 – Jul' 24

- Coordinated community outreach and field activities across 3+ locations to support community development programs.
- Collected, validated, and organized survey data from 50+ beneficiaries for tracking, reporting, and documentation.
- Collaborated with cross-functional team members to ensure timely execution of on-ground operations and project tasks.

Tech: Excel, Report Writing, Data Documentation, Field Coordination

Projects

Job Portal Web Application | GitHub — Feb' 26

- Built a full-stack job portal with role-based authentication for students and recruiters.
- Developed RESTful APIs for job posting and applications, ensuring secure data handling and validation.
- Designed and managed MySQL database schema to support user management, job listings, and application workflows.

Tech: Python, Django, MySQL, REST APIs, GitHub

Heart Disease Prediction System | GitHub — Mar' 25

- Built and trained a logistic regression model to predict heart disease, achieving 80% accuracy on test data.
- Performed data preprocessing and EDA on 1,000+ healthcare records to identify key feature relationships.
- Evaluated model performance using accuracy metrics and confusion matrix.

Tech: Python, Machine Learning, Scikit-learn, Data Visualization

Electric Vehicle Data Analysis System | GitHub — Mar' 25

- Cleaned and preprocessed large-scale EV population data containing thousands of records for analysis.
- Performed EDA on thousands of EV records to identify adoption trends and top 10 EV cities.
- Analyzed correlations and visualized insights on EV models, electric range, and geographical adoption patterns using plots and heatmaps.

Tech: Python, Pandas, NumPy, Seaborn, Matplotlib

Training

Data Analytics Essentials – Centre for Professional Enhancement, LPU | Certificate — Jun' 24 – Jul' 25

- Learned data analysis and preprocessing techniques using Python, Pandas, and NumPy.
- Applied SQL for data extraction, filtering, and querying on structured datasets.
- Designed multiple data visualizations and reports using Power BI, Tableau, and Excel.

Tech: Python, SQL, Pandas, NumPy, Power BI, Tableau, Excel

Certification

- Social Networks — NPTEL (IIT Madras) | NPTEL — Oct' 25
- Computational Theory: Language Principle & Finite Automata Theory – Infosys Springboard | Infosys — Aug' 25
- The Bits and Bytes of Computer Networking – Google (Coursera) | Coursera — Sep' 24
- The Complete Python Bootcamp: From Zero to Hero in Python | Udemy — Feb' 24

Extracurricular Activities

Binary Blitz Web Hackathon | Coding Ninjas — Apr' 24

- Participated in Binary Blitz Web Hackathon (Coding Ninjas), developing a responsive web interface focused on usability.

Education

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.51*** — Since Aug' 23

S.B.S.B. +2 High School Kasap — Ara, Bihar
Intermediate; ***Percentage: 77%*** — Apr' 19 – Mar' 21

B.D. Public School — Ara, Bihar
Matriculation; ***Percentage: 74%***
